CART PLASTERBOARD

The Wallboard Tools Plasterboard Trolley speeds up the movement of sheeting on site. It is designed to move quantities of sheeting, paneling, plywood and other construction materials while reducing physical strain.

- Sturdy tubular design with welded steel construction
- One fixed & three swivel castors for optimal manoeuvrability
- “No mark” polyurethane castors
- Deck shape makes the cart easier to navigate in tight spaces, around corners and through door ways
- Deck size 1120mm (w) x 290mm (d)
- Dismantles to fit in the boot of most cars
- Carry sheets up to 3.6m in length
- Designed to carry loads up to 1350kgs

Load Rating
1350kg

Safety
Certificate
Available

- ✓ Push cart from end of sheets
- ✓ Always keep lockable castor locked
- ✓ 2 person push when fully loaded
- ✗ Do not load sheets longer than 3.6m
- ✗ Do not stand beside sheets when moving

WATCH ON

Tubular frame shaped to enable improved cornering maneuverability

TELPRO MATERIAL CART

Designed as a plasterboard cart, the Telpro Material Cart is truly multi-purpose. The open front allows one person load and unload without damaging the boards or your hands.

Load Rating
1360kg

DC-1270

CONTINUED NEXT PAGE...

- Handles collapse for easy transportation
- Converts to a flatbed multi-purpose cart
- Sturdy 1360kg load rating
- Takes up to 3.6m plasterboard sheets
- One swivel locking caster

LED WIDE VIEW HEAD LAMP

Wallboard's Wide View Head Lamp gives you a full 230° of bright illumination. With 350 lumens, nothing will be left in the dark! It has an easy control button on the left side to switch through the 5 available modes, and a sensor option that allows you to turn the light on and off with the simple wave of your hand! Get up to 3 hours when using 100% Wide View COB LED and up to 8 hours when using the side beam XPE LED light.

- 350 lumens
- Motion sensor
- 5 modes
- 230° COB LED coverage
- COB LED wide view
- XPE LED side beam
- USB charging
- Adjustable band
- Light weight (70g)
- IPX4 rated

NC-CRIL

NC-H1

No-Coats 90° inside corner roller assists in delivering the high speed installation of 90° inside Ultratrim and Ultraflex 325 on off angles.

- Squeezes excess compound out behind the corner
- Roller matches the corner profile perfectly

The No-Coat double barrel hopper is designed to coat Ultratrim (inside, outside and bullnose corners) as well as Ultraflex 325 and Ultraflex 450.

- Set up for all angles - no time consuming adjustments
- High volume polyurethane tank

SCRAPERS & SCRAPER BLADES

7010

- 6 in 1 Multi Tool
- Scraper blade for cleaning surfaces
- Remove nails using the hole in the blade
- Hammerhead to set nails and screws
- Combination of edges removes putty
- Curved edge for cleaning paint rollers
- Point for opening paint tins

This handy multi functional plasterer's tool has a combination of edges to be used for a variety of uses on the job site. It has a hammer head for setting screws and nails. The scraper blade is great for removing putty and grout, and it can be used to scrape plaster and paint from externals or opening tins.

HAND TOOLS & ACCESSORIES

SHEET LIFTERS

The Wallboard Sheet Lifter raises and lowers plasterboard or other types of sheeting by way of a winch system.

PL-3350

- Lifts up to a height of 3.35m
- Tough welded steel construction
- Great safety with a cam lock break
- Tilting cradle for lower loading height and single person operation
- Cradle outriggers stabilise plasterboard sheets
- Dismantles to fit in the boot of most cars
- Maximum sheet size 1.22m x 4.88m

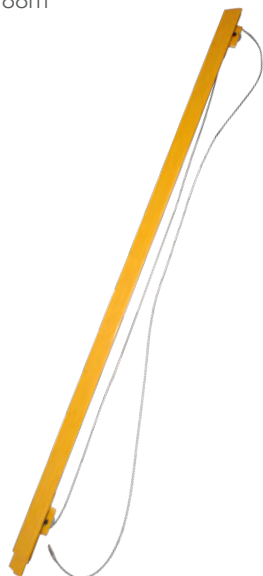

Fast assembly - no tools required

Spare parts available

Safety Certificate Available

Load rating 68kgs

PAGE 77 Parts Diagram Available

PLE-1200

- Height extension of 1.2m (total lift height of 4.5m when fitted to the Sheet Lifter)
- Tough welded steel construction
- Maximum sheet size 1.22m x 4.88m

WATCH ON

The Roller Lifter uses a "rolling" action to pivot sheeting off the floor.

RL-42

- Tempered all steel construction
- Ribbed back for extra strength
- Vertical top lip lets you guide lifter into place with toe
- Weighted nose keeps lifter in position
- Roller wheel moves board against wall, ready to install
- Length of sheet lifter is 380mm

ML-45

The Mini Lifter makes quick work of manipulating sheets from the ground.

- Strong tempered, all steel construction
- Ribbed back for extra strength
- Compact and lightweight
- Length is 230mm

* T-Squares are ordered in multiples of 5 for transportation purposes

ADJUSTABLE SQUARES

The adjustable calibrated T square blades are printed with easy to read metric measurements. With markings at 30, 45, 60 and 75 degree angles they're fully adjustable to any angle. With a hard wearing aluminium finish the head and blade lock together to form a perfect 90° angle. Purchase the 1200mm complete square, or add the 1350mm interchangeable blade that's available to purchase separately for cutting larger plasterboard sheets.

DELKO® TAPER

The Delko® Plastic Taping Tool and Internal Corner Attachment Package enables contractors to finish flat joints, internal corners and square set with one taping tool. The package includes the Delko® Plastic Taping Tool and the Delko® Internal Applicator Attachment.

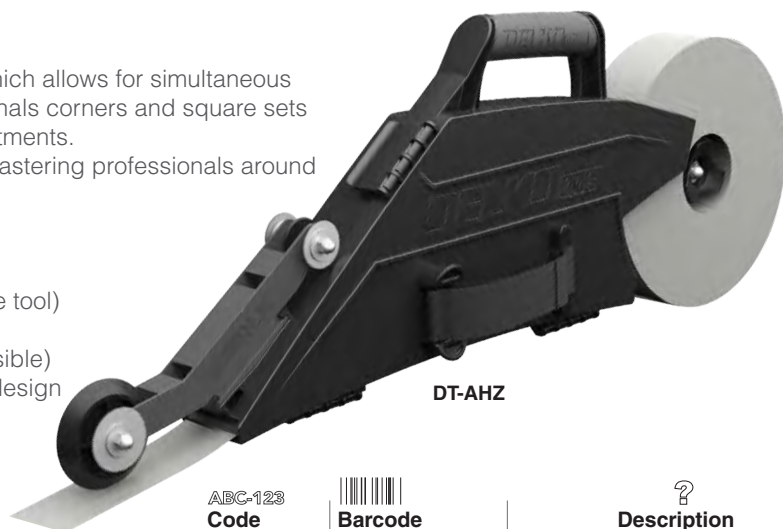

- Simultaneously apply compound and plasterboard tape to flat joints and internal corners
- Fast, easy and economical plasterboard taping
- Get the patented Delko® Internal Corner Attachment exclusively with the Delko® Taper
- Achieve a smooth, machined finish with the Delko® Flat Applicator
- Adjustable hook and loop side strap
- Reinforced main plastic comfort grip
- Use joint tape rolls up to 150m
- Impressive compound capacity of 2.25kgs

DELKO® ZÜNDER®

The Zünder® has revolutionised taping. Zünder® features the doubled ended Delko® applicator which allows for simultaneous application of compound and joint tape on flat joints, internal corners and square sets in minutes – eliminating messy and time consuming adjustments. It has been meticulously designed by a professional for plastering professionals around the world.

- Manufactured from durable Polycarbonate ABS
- Double ended Delko® Applicator Attachment
- Two adjustable soft grip handles (on either side of the tool)
- Right or left hand use
- Compound flow adjustment dial (which is always accessible)
- Fast access for loading and cleaning with a single clip design
- Holds rolls of joint tape up to 150m
- Designed to be used with paper tape and FibaFuse paperless joint tape
- Tool weight (empty): 1.3kgs*
- High capacity: 2.2L / 2.5kg*

DELKO® HYBRID

The Delko® Hybrid taper has fused the compact size of the Delko® Taper with the professional features found on the ZÜNDER®. Quickly switch between taping flat joints and internal corners with the patented, double ended ZÜNDER® applicator with more control than ever before. Alternate your grip between the large, comfortable top handle and the adjustable canvas handle positioned on the right hand side of the body. We listened to you, the trades people. Delko® Hybrid is everything you love about our taping tools, in one, compact package.

- Made from durable ABS
- Fast access to the inside of the tool via Delko's tough speed clips
- Compact mud bath design with a compound capacity of 2.25kgs
- Use joint tape rolls up to 150m in length – and not just paper, try Delko Hybrid with other tapes like FibaFuse
- Mud control dial allows you to make subtle or large changes to compound flow
- Experience maximum control. Switch between the adjustable canvas handle on the right hand side of the Hybrid, or the large, comfortable handle at the top
- Change between flat joints and internal corners with a flick of your wrist using the patented double ended Delko® Applicator Attachment

DELKO® HOLSTER

PUT YOUR DELKO® TAPING TOOLS ON HANDS FREE!

The Delko® Tools Holster allows you to carry your Delko® Taping Tool in comfort while freeing up your hands to wipe down taped joints. A great solution for holding your Delko® Tool while carrying out work on stilts.

- Compatible with Zünder® by Delko® Tools
- Easy access for drawing and reholstering your Delko® Taping Tool
- Comfortable back support
- Leg strap
- Durable material
- Easy to clean
- Lightweight
- Ideal for stilt users

Established in 2009 DELKO® Tools had a vision of innovating drywall tools for tradesmen designed and tested by tradesmen. DELKO® Tools is proud to be 100% Australian owned and operated.

EDMA PLASTIC TAPER

The Edma Taper is lightweight, weighing in at only 1.2kg and can conveniently be used both left or right handed. Filling the taper is super easy, with bucket hooks, a hinged door and even a compound tube filling point. There is also a featured creaser wheel for taping the internals and flow adjuster to get the perfect amount of compound distribution across the tape. The taper holds up to 2.5kg of compound with 150m joint tape capacity. The Edma Plastic Taper is the ultimate banjo and professionally gets the taping job done.
